

ALEJA LJUBLJANA-ŠIŠKA

In one of the most unique locations of Ljubljana, in the Šiška city district in the northwest of the Slovenian capital, SES is developing a new trail-blazing shopping center to bring a new dimension to the Slovenian shopping center industry. On a total of 32,000 m² of leasable space, approximately 80 shops, restaurants and service providers are to be realized, anchored by a brand new INTERSPAR hypermarket.

ALEJA Shopping center is a project that perfectly combines culture, leisure and shopping comfort with the best regional, national and international shopping concepts. With its timelessly modern and highly functional retail architecture, the new center is the perfect stage for new and innovative top labels in Slovenia.
