

EUROPARK Prague

A shopping destination in a growing retail hub.

These include many regular customers who appreciate the atmosphere and the excellent mix of retail outlets at EUROPARK. EUROPARK Prague is situated in a steadily growing retail hub in the south-east of the Czech capital.

In addition to its excellent transport links, the shopping center is characterised by its strong family focus and is very well established in the region. The center was expanded in 2008. The variety of shops, restaurants and service providers makes the shopping center unique. Furthermore, exceptional events and special offers make EUROPARK Prague a favourite shopping destination.

In June 2023, a brand-new Globus hypermarket spanning 11,000 square metres opened at EUROPARK Prague, serving as a powerful draw – and as the most modern food store in the Czech Republic. As the SPAR Austria Group is no longer represented in the country, SES is now utilising this hypermarket format there.
