Shopping-Quartier Lienz Lienz/East Tyrol

New Shopping Quarter in Lienz

SES is planning to build a mixed-use downtown district adjacent to the busy pedestrian zone in Lienz, East Tyrol. In addition to retail, service, and gastronomy, the project also includes a hotel, the construction of which will start in spring 2022. The “harry’s home” Lienz as a 3* superior plus hotel will offer 85 rooms and 170 beds. Part 2 of the shopping district is still under development. The conception of the retail areas is currently being adapted to the changed market conditions caused by the pandemic.
